

## ENVIRONMENTAL POLICY STATEMENT

The **IPP Group** recognises its social and environmental responsibilities and is committed to minimising the environmental aspects and impacts of its operations.

### Environmental Objectives:

To meet its environmental objectives, the IPP Group will, as far as is reasonably practicable:

- Promote waste minimisation by recycling wherever economically viable;
- Ensure that IPP Group employees understand and comply with this policy and that all Directors, Managers and Supervisors are accountable for its implementations;
- Meet all legal and regulatory requirements pertaining to its operations;;
- Implement suitable controls to minimise the risks and consequences of environmental incidents;;
- Work with suppliers, contractors and customers to mutually improve environmental performance;
- Cooperate with statutory bodies to resolve issues of common concern;
- Constructively investigate all incidents and near misses to establish the root cause and take prompt and effective measures to prevent reoccurrence.

More detailed information regarding the responsibilities and arrangements in place for the effective management of health and safety matters are available to all employees in the Company's Quality Systems Manual.
